## BAD! BAD!! BAD!!!

Bad blood comes from bad digestion—bad stomach, bad liver, bad kidneys—attended with bad, foul breath, coated tongue, bad taste, bad headaches, bad appetite and kindred symptoms. Bad as these all are, and serious as are the diseases to which they lead, Dr. Pierce's Golden Medical Discovery comes to the relief and cure of all these by regulating and invigorating STOMACH, LIVER, BOWELS and KIDNEYS, and putting all these organs in good order.

"Golden Medical Discovery" contains no alcohol, opium or other harmful drugs; neither does it contain sugar or syrup, which are injurious to some stomachs. Without any of these it retains its pleasant taste and marvelous healing qualities in the most trying climate. Don't let a selfish medicine seller cheat you out of your health by giving you a substitute. He's only looking out for a larger profit, not for your good. Shun him. Honest, unselfish dealers recommend the "Golden Medical Discovery."

"That your remedies are not for the few, but for the *many* is evident, for I personally know of many scores of persons in this city who have been restored to health and strength by your medicines," thus writes Henry Landsheft, Esq., Alderman in 17th Ward, Buffalo, N. Y., of 1204 Jefferson Street. "I know that Dr. Pierce's Golden Medical Discovery is most valuable in cases of derangement of the liver, having taken the medicine some two years ago when I had a bad attack of liver trouble, and I never used a medicine before that did me so much good. I have known Dr. Pierce for twenty-six years, and do not wonder at his success, for he is a physician and man of sterling qualities, is possessed of extraordinary skill, and he has in his Sanitarium a corps of Specialists who are chosen because of their unusual knowledge and professional skill."

If suffering from any obstinate, lingering ailment, write to Dr. Pierce and get, free of charge, sound medical advice. He has the counsel and assistance of a large staff of expert specialists.

The People's Common Sense Medical Adviser, by R. V. Pierce, M. D., Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Paper-bound FREE on receipt of 21 one-cent stamps for mailing *only*; or cloth-bound for 31 cents. Address the Author, as above.

### COMPETENT JUDGES.

**Beauty Doctors Endorse Herpicide.**

Women who make a business of beautifying other women come pretty near knowing what will bring about the best results. Here are letters from two, concerning Herpicide:

"I can recommend Newbro's "Herpicide," as it stopped my hair from falling out; and, as a dressing it has no superior.

"(Signed.) Bertha A. Trullinger,
"Complexion Specialist,
"29½ Morrison St., Portland, Ore."

"After using one bottle of "Herpicide" my hair has stopped falling out, and my scalp is entirely free from dandruff.

"(Signed.) Grace Dodge,
"Beauty Doctor,
"195 Sixth St., Portland, Ore."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

## Kodol
### Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.
D. KAUBLE, Nevada, O.

**Digests What You Eat**

### Cross Blessed by Cardinal Gibbons.

Rev. E. Lawrence Hunt, pastor of the Washington Heights Presbyterian Church, of Washington, who resigned from that charge some time ago and whose services to the congregation cease September 1, preached his farewell sermon yesterday morning. His sermon was followed by remarks to a little girl, to whom he presented a cross blessed by Cardinal Gibbons.

In closing, Mr. Hunt presented Miss Marie Smith with the cross. Among other things the minister said:

"Two years ago you won a Bible for learning the catechism, and that in the short space of one month I told you then from this pulpit, what displeased some, that as you had been baptized in the Roman Catholic Church, your mother's church, I hoped you would, in due time, be confirmed in that church. I am glad to know you have been, and that you are now faithful in your attendance there. I told you that the word of God is better than our catechism and that when you got the Gospel of St. John by heart I would give you a cross like the one I wear on my watch chain. Though you have not yet completed it, you have done so well, I am sure it will not be long until you will have it all, and I shall hear you recite it when I next come to Washington. But as this is my by last Sabbath here, I am glad to give you this cross today.

"I saw Cardinal Gibbons last week, and told him all the facts in this matter, and his eminence graciously promised that if I would send him the cross, he would bless it. I did so. This will have an added sacredness and value to you, as a faithful child of that church, because it has a cardinal's blessing. In my own judgment, too, as a Protestant minister, his blessing means very much to you, personally. From my point of view, it means that a great, good man is interested in you, and has prayed for you. I believe it will help you, beyond words, to strive by the grace of Jesus, to reach our ideal for you; to bless your home, and the circles you move in. But Cardinal Gibbons' blessing of this cross has a wider significance. It is of interest to all. That a cardinal of the Roman Catholic Church should bless a cross given by a minister of the Presbyterian Church of Washington to a child as a reward for learning the Gospel of St. John out of a Bible given by the Presbyterian board will do untold good to the Roman Catholic Church and to the Presbyterian Church, and to men in no church. Thank God for the age in which this is possible."

Mr. Hunt then presented the cross.

### The Ketocton Association.

The Ketocton Association of Regular Baptists concluded its session with Robinson River Church at Criglersville, Madison county, a week ago.

This association was organized in 1766, 139 years ago, with four churches, which had been constituent members of the Philadelphia Baptist Association, the oldest association in America. One of its churches had been constituted in the mother country and had removed, pastor and membership, to America, in the early part of the eighteenth century.

One church, originally composing Ketocton Association, Smith's Creek, at Newmarket, Shenandoah county, Va., has continued till this day, and was represented at the recent meeting of that body at Criglersville. The Philadelphia Association was distinguished for its gospel mission spirit. Through its ministers and the co-operation of the membership missionaries were sent to the far West and South, and Baptist missionaries in India, who went from England in 1792, obtained the cordial support of that body. At the same time their children were instructed in the Scriptures, the Baptist catechism, prepared by Benjamin Keach, being used as a help to that end. In 1890 the Ketocton Association was reorganized upon the original principles, and since then has been actively engaged in foreign missionary work.

The recent meeting of Ketocton was attended by large congregations. The local ministers and a minister from the West preached and conducted the interesting and profitable services.

### Would Banish the Jews.

Philip Cowen, publisher of the American Hebrew, has received a letter threatening the Hebrew race with eviction from the United States, peaceably if possible, by force if necessary. An effort will be made to trace the writer or writers. "There is in existence, as you will better realize within the next year," the letter says, "a powerful organization which will rid American soil of Hebrews. Wealth, power and numbers cannot save them. They must go, unharmed if they like, by force and utter destruction if necessary. The harmless infernal machine of the last 10 days was sent not to kill, but to awaken the people and enable us, through expressions of persons, to learn their sentiment. "No Hebrew is to be killed without warning. Each will first have a chance to rid the country of his presence. If he remains after the warning his destruction will be certain. It is believed that within 10 years it will be as impossible to find a Hebrew on American soil as to find a reptile in Ireland."

**Agonizing Burns**

are instantly relieved, and perfectly healed by Bucklen's Arnica Salve. C. Rivenbark, jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain, and healed it without a scar." Also heals all wounds and sores, 25c at E. S. Leadbeater & Sons druggists.

### Indian Language Turkish.

Students of the University of Campeche, capital of the Mexican State of the same name, have discovered that the language of the Indians of Campeche and the Turkish language are almost identical. Turks coming directly from their country to Mexico find no difficulty in making their wants known to the Indians of Campeche, and within a few weeks they are able to talk the language of the Indians fluently.

Ethnologists of Mexico City have now decided to attempt to establish the relation between the Indians of Campeche and the Turks, but it is considered to be as difficult a problem as that of explaning the discovery a short time ago at the same place in the State of Aazaca of Egyptian and Chinese idols.

**Colic and Diarrhoea—A Remedy that is Prompt and Pleasant.**

The prompt results produced by Chamberlain's Colic, Cholera and Diarrhoea Remedy together with its pleasant taste have won for it a place in many households. Mr. W. T. Taylor, a merchant of Winslow, Ala., writes: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy myself and also with men on my place, for diarrhoea and colic and it always gives relief promptly and pleasantly." For sale by Gibson and Timberman and W. F. Creighton & Co.

**Soothing and Cooling.**

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sure cure for Piles and skin diseases. Dewitt's is the only genuine Witch Hazel Salve. Beware of counterfeits, they are dangerous. Sold by W. F. Creighton & Co., 401 King street.

**FOR OVER SIXTY YEARS.**

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

**Take Kodol After Eating.**

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of indigestion. Kodol is a thorough digestant and a guaranteed cure for Indigestion, Dyspepsia, Gas on the Stomach, Weak Heart, Sour Risings, Bad Breath and all Stomach troubles. Sold by W. F. Creighton, and Co., 401 King street.

AND VIRGINIA ADVERTISER

MONDAY EVENING, AUG. 28, 1905.

THE BRUTAL proceedings in a north Lee street resort last Saturday night afforded a theme for considerable comment yesterday. A young Alexandrian lies at the Alexandria Hospital in the shadows of another world suffering from knife wounds and the batterings of a black jack inflicted, it is alleged, by soldiers during a row. Many tread dangerous paths of life and escape serious consequences, but occasionally some dreadful catastrophe overtakes an individual seemingly as a warning to others. The admonition, however, is not lasting, and soon the habitues of questionable resorts are again tempting Providence. About a third of a century ago a canal boatman had his brains scattered upon the floor of a north Union street resort by a woman whose anger he aroused. This proved a temporary check upon some of that generation, and now another terrible admonition is before those who have since been born. The circumstances in connection with the blood-shedding of last Saturday night appear to be similar to those which have caused such scenes in by-gone days. A woman had been called an ugly name and the victim of the butchery had resented it. Evil paths are ever dangerous. Solomon warned people in his day and generation to be aware of such, and and in his reference to women with bankrupt characters he observes that they have cast down many wounded; yea many strong men have been slain by them. Their house is the way to sheol, going down to the chambers of death. He knew whereof he spoke.

THE republican organization of New York county, through its executive committee, under the leadership of ex-Governor Odell, has decided to fuse with all anti-Tammany and anti-Mayor McClellan elements upon the platform of municipal ownership of public utilities The resolution adopted by the republicans declared the purpose of their party to give its full power in the coming election to the support of candidates pledged "to an administration of the affairs of this city in which the public utility corporations will not be masters of the people of this city." Committees were appointed to confer with other bodies. This is another proof that the republican leaders act not on principle but on policy. At heart they are against municipal ownership, but in New York will profess to favor such a measure just to catch votes. It was the same way with them in Virginia when in their national platform they preached honest settlement of debts and then united with the readjustors. But one of their apostles declared that any thing was right that would help break up the democratic party.

IT MAY not be expected of secular papers to look after the religous affairs of a community, but we cannot refrain from making the suggestion that Alexandria is too large a city to be left for any considerable length of time without an Episcopal minister within her limits. It would seem that the resident clergy of this denomination might so arrange the holidays that all of them should not be absent at the same time. It is admitted that August is the most desirable month to leave the heat and dust of many of our cities, but clergymen should remember that some people die, marry and get sick during this month and that when their services are really needed one at least might be found at home.

A SENSATIONAL incident disturbed the sessions of the League of American Municipalities at Toledo, Ohio, Thursday, when Mayor Woodward, of Atlanta, Ga., who is opposed to municipal ownership, made a bitter attack upon Mayor Johnson, of Cleveland, and Mayor Dunne, of Chicago. He charged that they were making a play of the people for their votes, and knew they could not give them municipal ownership if they were elected. Whether Mayor Woodward created a sensation or not, what he said was absolutely true, and it is strange that so many people in this boasted civilized age allow themselves to be humbugged by demagogues.

ACCORDING to the last climate and crop summary, the favorable condition of corn had continued throughout the principal corn States and also in the Atlantic coast and eastern Gulf districts. Extensive rains and windstorms had done some damage in western States, but not sufficient to deprive corn of its lead in the season's crops. The cotton crop as a whole has suffered deterioration. Ohio and Indiana tobacco has been hurt by wet weather. The general outlook for the apple crop continues to be unfavorable. Potatoes in the lake States are suffering from blight and rot.

A REPORT is in circulation that Judge L. L. Lewis is running for the governorship of Virginia upon the urgent and personal request of President Roosevelt, who, it is said, stated that having made certain changes in offices in this State, he does not want to see any falling off in the republican vote. This would indicate that the President fears a knifing by the removed office-holders and their friends and hopes that Judge Lewis may be able to prevent such an occurrence. The judge may be able to hold his party together and prevent a marked rebuke to the President, but that he will be elected governor, or even that he expects to be elected, no one versed in politics believes.

REPRESENTATIVE CANNON, while in Washington last week, told the reporters that the reciprocity conference at Chicago had not altered his position on the stand-pat tariff policy and added that he doubted if any representative men had attended the conference. Mr. Cannon is a shrewd politician. He remembers that less than a year ago this country voted for high tariff when it elected Mr. Roosevelt and he will not let little things like reciprocity conferences sway him in his allegiance to the trusts which control the G. O. P.

ACCORDING today's dispatches President Roosevelt has incurred the displeasure of Russia for the part he has taken in the recent peace negotiations, and that the Russians are viewing the United States as an ally of Japan. It is alleged by the Russians that Mr. Roosevelt has exceeded all limits as a host and that his persistence, after Russia had refused some of the Japanese demands, is offensive to the Czar.

CIRCUIT JUDGE BUCKINGHAM, in deciding against the Indiana Medical Board of Registration, at Indianapolis, in its efforts to convict Dr. J. M. Rhodes of malpractice, scored the board for having employed a woman as a stool-pigeon to visit physicians and endeavor to get them to perform an illegal operation. An injunction was granted preventing the board from proceeding against Rhodes.

THE HEIGHT of folly has been reached when the suggestion is made by a Paris newspaper that Mr. J. D. Rockefeller, a private American citizen, pay the indemnity Japan demands of Russia, and thus stop the war between those nations.

## From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., August 28.

Edwin S. Holmes, jr., former associate statistician of the Department of Agriculture, voluntarily surrendered himself to the United States marshal this morning in response to the indictment found last week by the grand jury charging him with conspiracy in connection with the premature use of government crop reports. Later Holmes was brought before Justice Stafford and his bond fixed at $10,000, which he gave with W. H. Trouland as surety. District Attorney Beach endeavored to persuade the court to make the bond $20,000, arguing that Holmes had forfeited any consideration by the government through his failure to appear Saturday as had been arranged. During the course of the argument Mr. Beach stated that the government had discovered that Holmes recently sold a gold mine out west for $73,000, that he had sold other property for $50,000 and that he had $50,000 besides, deposited in various safety deposit boxes. Holmes' salary as a government official was only $2,200 a year.

No action looking to the recognition by the United States of the independent sovereignty of Norway will be taken until the return to this city of President Roosevelt and Secretary of State Elihu Root. Eventually, it is frankly admitted, it is the purpose of this country to accord recognition to Norway, but it is probable that the United States will follow the lead of European countries and will not take the initiative in the matter.

United States Consul Nason, at Grenoble, France, is daily sending information by cable to the State Department the condition of the stranded American circus employees at that place. This morning a dispatch was received by him in which he says that there are still 65 American members of the circus at Grenoble in a very distressing condition. The officials of the State Department declare that no instructions relative to the relief of these people have as yet been sent to Consul Nason. When asked just what this government could do for these people the statement was made that nothing could be done unless the President borrowed the money for their passage home trusting to Congress for an appropriation to reimburse the banker or bankers from whom the money would be borrowed. Such action, so far as is known here, is not contemplated. There is no appropriation which could be used for the relief of the stranded Americans.

Encouraging information regarding the boycott situation in China was received by the State Department this morning by cable from United States Minister Rockhill, at Peking, China. Minister Rockhill reports that, according to the latest information received by him, the boycott is gradually subsiding. He says that the Chinese merchants of Shanghai who deal in "piece goods" are strongly opposing the boycott and are taking steps which, he thinks, will most likely break the boycott as far as such goods are concerned. It is said at the State Department that this will be most gratifying news to the manufacturers of the south, who export to China. The cotton goods sent out from the southern States are included in the category of "piece goods" and it is evident that the boycott on such materials will be broken.

The Interstate Commerce Commission in an opinion today in the case of T. M. Kehoe & Co., of Terre Haute, against the Charlestown and Western Carolina, Seaboard Air Line and others, held that the defendants' established charge a of $1 a day for demurrage on each car load of hay is just and reasonable. In the case of Kehoe and Company vs. the Evansville and Terre Haute and others, it is held to be unreasonable and unjust to insist upon billing hay shipments to a specified destination in order to secure application of a lower proportional rate.

In the matter of the seizure of 108 bales of tobacco, shipped from Tampa to New York, one half of which is said to have paid the duty on filler tobacco when it should have been assessed as wrapper, Assistant Secretary Reynolds today ordered that an official appraisement be made this week, in order to determine the exact value. This appraisement will show whether or not the government was justified in making the seizure.

The War Department today received a cablegram from Major General Corbin, commanding the Philippine Division, announcing the death of Lieut. Col. William H. Baldwin, deputy commissary general, which occurred at Manila, P. I., this morning.

The President has approved the sentence of dismissal awarded by a court-martial at San Francisco in the case of 1st Lieut. George S. Richards, jr., of the 23d Infantry. Richards was tried on charges of embezzlement, conduct unbecoming an officer and a gentlemen, and conduct to the prejudice of good order and military discipline. Besides being sentenced to be dismissed from the army Richards received the additional punishment of confinement at hard labor for one year.

The State Department this morning received a cable dispatch from United States Minister Merry in Nicaragua in which he says that the American citizen, Mr. Albars, who has been imprisoned by the Nicaraguan authorities, is being made very comfortable. He is allowed to receive his visitors in prison and each day is given permission to go to his home for an hour or two under guard. Minister Merry reports that he has not been able to find out just what the charges are against Albars. He has learned, however, that competent counsel has been engaged to defend him and that he will soon be given a jury trial It was because of the protest made against the imprisonment of Mr. Albars by United States Consul Donaldson that the Nicaraguan government cancelled his exequator.

Secretary Taft, at Manila, has decided to postpone the date for opening bids for the Philippines railroad concessions from November 1, the date mentioned in the invitations for proposals, to December 1, 1905. The postponement is deemed advisable in order that greater publicity may be had and more opportunity afforded biddiers for investigations.

Acting Postmaster General Hitchcock has issued an official order directing that in the September postal guide, the name Wilkesbarre, Pa., be changed in spelling in spelling so as to appeal "Wilkes-Barre" with a hyphen and capital B. This action was taken at the direction of President Roosevelt upon a request made by citizens of that city.

After a series of unsuccessful attempts on the part of the postoffice inspectors to locate the Great Eastern Manufacturing Co., of New York, a fraud order has been issued against it denying the company the use of the mails. Complaint was received by the department that money sent in accordance with advertisements, failed to bring fortune-telling cards and books on palmistry. A fraud order has been issued against Purtelle Price & Co., 54 Commerce Building, Chicago, Ill. The company obtained remittances of money through the mails for the alleged purpose of being used in discretionary grain and stock speculation.

The contract for the interior finishing of the custom house at Baltimore was awarded by the Treasury Department today to Henry Smith & Sons, of that city, at their bid of $352,135. The work is to be completed April 15, 1907.

Warren S. McDaniel was appointed postmaster at Korea, Culpeper county, Va., today, vice Mollie L. McDaniel, resigned.

## News of the Day.

John M. Jones, for thirty years grand secretary of the Maryland Grand Lodge of Odd Fellows, died Saturday.

A dispatch from Manila says that the transport Logan has arrived at Olongapo, Subig bay, with Secretary Taft and party aboard.

Mr. John K. Shaw, a well-known financier and coal magnate died at his home in Baltimore Saturday as the result of a sudden attack of Bright's disease.

A dispatch from Sioux Falls, S. D., says that Mrs. Wallace D. Scott, the divorced wife of Roland B. Molineux will soon appear before the footlights in vaudeville.

The British steamer Dehera, of the Anchor line has been lost on Alguda Reef in the Bay of Bengal. The cargo of the vessel valued at $100,000, and her passengers were saved. Many of the passengers had narrow escapes.

Rear Admiral Kataoka has reported to the Japanese navy department that the naval division sent up the Amur river bombarded and destroyed two Russian guard stations at Zharef and Lazeervo, on the south bank of the river. These stations had recently been re-enforced.

A few minutes after the close of W. B. Riley's address at the First Baptist Church at Minneapolis yesterday, while 200 persons were leaving the edifice, a man, who is thought to be W. Rowan, of Sublette, Ill., got up in a pew and fired a bullet through his heart, dying instantly.

Twenty Mexican laborers were killed and a number injured by the permature explosion of a quantity of dynamite at the port works at Manzanillo, Mexico. The bodies of those killed were horribly mangled. It is said that the explosion was the result of carelessness on the part of some of the laborers.

Upon entering a house in Chicago, to which he had been called to attend a person said to be critically ill, Rev. Benedict Rosinski, of St. Stanislaus' Catholic Church, was set upon by two men and a woman and forced to sign two notes and two checks for $500 each. The police have made three arrests in connection with the case.

Carl Verbele, a farm hand, Saturday surrendered himself to Wilson T. Jones, sheriff of Gloucester county, New Jersey, and asked to be hanged. Verbele said he had killed a man in Virginia last January. Verbele says that on January 19 he killed Joseph Gentry, a comrade of his, in Gate City, Scott county, Va. The murder had been committed in the heat of a quarrel and he had fled to the North.

Ormondale, a son of the famous Ormonde, out of the noted mare Santa Bella, won the Futurity race run at Sheepshead Bay track Saturday. The race was worth $42,680 gross, of which Ormondale's share was $33,680. Ormondale ran the six furlongs straight away in 1:11 4-5, the time made by Artful, who won the Futurity last year. He finished a length and a half before H. P. Whitney's Timber, by Ogden-Lela A., who ruled second in favor at 6 to 1.

## Virginia News.

In the Circuit Court of Franklin county Saturday the jury in the case of Cephas Poindexter, colored, indicted for the murder of United States Deputy Marshal Z. T. Wade, returned a verdict of murder in the first degree.

The capitol rebuilding commisson has ordered the chair used by the speaker of the house of burgesses more that 200 years ago at Williamsburg repaired and upholstered for use in the enlarged building in Richmond, which will be used by the General Assembly when it convenes in January. The chair has been kept on exhibition for many years and is in excellent condition.

"Frisco Slim," on Friday acquitted on the charge of safe-cracking in Williamsburg, and immediately re arrested by a Pinkerton man, on the charge of burglary in Maryland, is a free man. The alleged safe-blower was taken before a magistrate in Williamsburg Friday night, who decided that the evidence in the hands of the Pinkerton man was insufficient to warrant him in holding the prisoner.

### Negro Lynched.

John Moore, a negro, twenty years old, was taken from Craven county jail in Newberne N. C., early yesterday and lynched by a mob of 100 masked men armed with rifles and revolvers.

With his hands tied behind him, the negro was led out about one-third of a mile from the jail to the draw of the Neuse river bridge, hanged to one of its braces, and his body riddled with bullets.

The mob attacked the jail between 1 and 2 o'clock yesterday morning. Entrance to the jail was effected by forcing the jailer to surrender the keys. As soon as the attack was discovered, the naval reserves were called out to attempt to prevent the lynching. Crowds rushed to the bridge. Sheriff J. W. Biddle was quickly on the scene, pleading that Moore be left to the law, but his efforts were unavailing and the mob carried out its plans.

Moore entered the country store of George Eubank, at Clarks, seven miles from Newberne, last Friday, when the proprietor's wife was there alone The negro attempted robbery and struck Mrs. Eubank on the head with a meat axe, fracturing bones and inflicting injuries which, if they do not prove fatal, will at least cause not only disfigurement but life-long suffering. Mrs. Eubank screamed and people came to her rescue. The negro fled, but was captured in a swamp, after a chase of a few miles, and was placed in jail.

The immediate cause of the lynching lay in the fact that at his preliminary hearing Saturday Moore's bond was fixed at the small sum of $300.

The deed was denounced from all the pulpits of Newberne yesterday morning.

### New Ocean Greyhound.

One of the managers of the North German Lloyd, Mr. P. Pavlovski, of Paris, staying at the Wenworth at Portsmouth, N. H., confirmed the statement that his company has ordered from the shipyards at Stettin, Germany, a duplicate of the Kaiser Wilhelm II.

The ship will be built exactly on the plans of the Kaiser Wilhelm II, which is considered among naval architects the perfection of a modern fast express steamer. She will be fitted with reciprocating engines, as the reports of the experts of the North German Lloyd have all been adverse to the employment of turbines on very large and fast steamships. The engines will have the same horsepower as the Kaiser Wilhelm II —40,000—but the builders expect, with the experience gained and the continued progress made by naval architects, to increase the speed by more than half a knot, so that the ship is expected to maintain an average speed of 24 knots an hour, while the coal consumption will be smaller than on the Wilhelm II.

Although vibration exists only to a small degree on the Kaiser Wilhelm II and is less perceptible than on any fast steamer afloat, the German engineers believe they have found a way to make it disappear altogether on the new ship.

The interior decorations will surpass in luxury and comfort anything ever attempted upon ocean greyhounds. There will be nearly 50 chambers de luxe, with private baths and toilets; the greater majority of cabins will have lower beds and many of them will be of the popular single bedroom class.

This latest addition to the fleet of the North German Lloyd will make her trial trip in April, 1907.

### Minister Arrested.

Rev. R. W. Field, formerly pastor of the First Baptist Church, at Milford, Conn., was arrested during a service in that church yesterday, charged with creating a disturbance. He was later arraigned and gave bonds for his appearance in court Tuesday. Mr. Field, it is alleged, was asked to resign the pastorate of the church several weeks ago, but for some time he has insisted on filling the pulpit. Yesterday, as the Rev. W. A. Herrod, of Hartford, was about to preach, Mr. Field attempted to force his way into the pulpit. He was requested by the deacons to take a seat in the congregation, and upon his refusal to do so, the church officials directed an officer to place the minister under arrest. Rev. Field formerly was pastor of a church at Asbury Park, N. J.

### Tuesday's Primary.

While returns from last Tuesday's primary are not yet sufficiently complete to enable an exact statement to be made as to the vote for Senator and Governor, it is now apparent that not over 70,000 votes were polled, if so many, and that Senator Martin's majority will probably not exceed 11,000. Mr. Swanson's plurality will probably not exceed 30,000, and, as will be seen, his vote nearly equalled that of both his competitors combined. Complete and official returns are not sufficient yet to show absolutely whether Mr. Willard or Mr. Mann ran second to Mr. Swanson, but from the figures now in hand Mr. Willard leads Judge Mann by about 700 votes, with six counties to report.

### The Only Way.

There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, rifting, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. W. F. Creighton & Co., 401 King street.

## Today's Telegraphic News

### Launch of the Woodbury.

[Special Dispatch to the Alexandria Gazette.]

Wilmington, Del., Aug. 28.—The steamer Woodbury, one of the new ferry boats to ply between Alexandria and Washington, was launched at 10:40 o'clock this morning in the presence of officers of the Norfolk and Washington Steamboat Company, a delegation of officials of Alexandria and a number of prominent citizens of Washington and Wilmington. The steamer was christened by little Mary Callahan, granddaughter of the superintendent of the line. After the launching a handsome lunch was served by the officers of the Harlan & Hollingsworth Company, the builders. The launching was successful in every particular. The boat is regarded as a fine specimen of marine architecture.

### The Peace Negotiations.

Portsmouth, N. H., Aug. 28.—Despite the gloomy prophecies of the envoys of both Russia and Japan that the next meeting of the peace conference will in all probability be the last, the opinion is gaining ground that the present hitch between the two belligerent nations is merely a diplomatic struggle for points. While the official utterances as to the outcome are pessimstic, every indication seems the warrant the assertion that each side has as its ultimate aim the re-establishment of peace if it can be accomplished without discredit to itself. One suspicious circumstance is the entire freedom with which the envoys declare that there is no hope of an adjustment of the differences unless concessions are secured from the other side. The continual postponements of the meetings when the only differences are declared to be irreconcilable is another straw pointing to a desire to reach an agreement. There can be no doubt that the envoys of Japan and Russia are fully acquainted with the extent of the concessions which they would be permitted to make in the framing of a treaty.

The postponement until tomorrow of the meeting set for today is another indication of the efforts of the plenipotentiaries to find a common ground upon which they can stand.

Unquestionably Japan is furnishing every reason for the belief that she intends to exhaust exery effort before permitting the peace negotiations to be brought to a conclusion.

At tomorrow's meeting it is believed that Japan will present some suggestion that will carry the conference over a few days longer. Whether this will take the form of additional concessions is not known, but the presumption is that it will. The Russian envoys may reject it off hand or refer it to the Czar. In any event it will further demonstrate that Russia and not Japan is the determined obstacle in the pathway of peace.

Why M. Witte did not present at Saturday's meeting Russia's counter-proposition, which he had in is pocket at the time, cannot be understood, unless it be that the Czar had exposed a valuable card. It will be remembered that the Japanese concession provided for the withdrawal of the war indemnity clause and all others to which Russia had objected if the Czar would buy half of Sakhalin Island for $600,000,000.

It was up to Russia to reject this offer if it did not meet her approval. This was done by M. Witte at Wednesday's meeting, at which time the concession was made, but upon the request of the envoys the offer was transmitted to St. Petersburg. Friday evening an answer was received from Russia. It was unofficially announced that it met the Japanese proposals in the proper spirit.

The Publishers' Press learned upon the highest authority that this answer went further than a rejection of the Japanese demands in that it contained a proposal to pay liberally for the maintenance of the Russian prisoners and contained some suggestion relative to the disposition of the island of Saghalin. M. Witte took this document with him to the Saturday conference, but to the astonishment of the Japanese envoys he did not present it or any other document.

When asked by Baron Komura if the Russian government had any further communication to make, he replied that it had not and that, so far as he and his associate were concerned, steps might be taken for the final adjournment of the conference.

What the Russian envoys propose to do with this answer, now in their possession, is the merest conjecture.

The tenor of the utterances from both Russian and Japanese headquarters is to the effect that negotiations have practically been concluded and that tomorrow's session will be the last. There has been talk of Japanese concessions. Minister Takahira, the junior envoy of Japan, says this is an erroneous impression.

Mr. Korostovitcz, speaking for the Russian envoys, still holds to the belief that the next session will be the last.

"Will Russia make any concessions or give further consideration to the proposals recently made by Japan?" the envoy was asked.

"It will not. The Czar will never permit the payment of an indemnity."

The envoys decline to express any opinion as to the attitude of President Roosevelt in connection with the peace negotiations.

Hints, however, come from the Russian quarter that the envoys of the Czar are greatly displeased, and that the Czar himself characterized President Roosevelt's recent suggestion as an interference.

It is understood that Russia received in the proper spirit the President's first advances and that it joined with Japan for a time in the selection of the President as mediator. But when the Czar announced his government could not accept a principle that he considered reflected upon the honor and dignity of Russia, he felt that insistence by President Roosevelt became objectionable. There is no concealing the fact that the Russians here view the President in the light of an ally or at least a partisan of Japan. They intimate that if the President's attitude is correctly represented in that dispatch, they consider that he has exceeded his prerogatives as a host, and could they be assured of it they would break off the negotiations without further ceremony.

There is also irritation in the Japanese camp, but their grievance is against Russia. They are understood to have resented the action of the Czar in practically taking out of the hands of his envoys here the plenary powers which had been given them under their credentials.

When asked as to whether he regarded the situation hopeless, Mr. Takahira said: "No, not hopeless, but almost hopeless."

Portsmouth, N. H., Aug. 18.—"That is merely an incorrect version of what I explained to you a few days ago. It is an attempt of Japan to get an indemnity under another name, and Russia rejects it." This statement was made to the Publishers' Press by M. Witte this afternoon, when he was asked about the sensational report sent out by a news agency that President Roosevelt has been authorized by Japan to waive all questions of indemnity and offer to sell half of Saghalin, the "redemption price" to be fixed by a mixed commission composed of neutral European powers.

Baron Komura and M Witte, speaking through their spokesmen, both reaffirm their declaration that the situation appears to be hopeless and that a rupture may occur at the next session.

Tokio, Aug. 28.—The conference of the cabinet and elder statesmen, who were called together in special session early this morning, has been prolonged for several hours. It is understood that the question under discussion is the abatement of Japan's demands for a money indemnity from Russia.

St. Petersburg, Aug. 28.—The sentiment of the reactionary element is well expressed in an article which appears today in the Svet, which says: "The Japanese conditions for peace would only be acceptable if a Japanese fleet was threatening St. Petersburg and a Japanese army was occupying Moscow. Russia will not bow to the Japanese even to fulfill President Roosevelt's desire to guarantee the American creditors of Japan to cover himself with glory as a peacemaker.

"Japan, needing peace, seeks it through the intermediary of her friend, President Roosevelt, and makes exorbitant demands while the President is indirectly striving to exact the consent of Russia. After fruitless negotiations it would seem that we are on the eve of what Russia has long desired, a great battle between General Linevitch and Field Marshal Oyama."

### The Taggart Divorce Case.

Wooster, O., Aug. 28.—Mrs. Grace Taggart stepped lightly into court this morning. She passed a quick nod and a smile to a group of friends already there, and then stepped forward to be sworn. The day she says she has been looking forward to ever since the filing of the charges against her has arrived. As the bell in the tower of the court house had ceased its toiling Judge Eason took his seat on the bench, and the fifth week of the Taggart divorce trial was on.

The attorneys for Mrs. Taggart and those of the other side were already in their places. Just a few feet away, and very straight in his chair, sat Captain Taggart.

The court room quickly filled with the crowds attracted by the promise of sensational testimony. Mrs. Taggart was to be on the witness stand to tell her own story. On this story in great measure, depends the result of the case.

Taggart had told his story of fast living. His witnesses had added to this each his share. Then came the witnesses for Mrs. Taggart, denying this and failing to remember that.

"What will Mrs Taggart have to say?" This has been the question in the minds of many. Now, after four weeks testimony, these questions were to be answered.

"I will show," said Mrs. Taggart," that the charges against me are all false. I never drank to excess. My alleged infidelities were all in the mind of Captain Taggart."

While Mrs. Taggart waited to take the stand, her attorneys made the charge in court that papers from the War Department, under seal of the department, had been tampered with and suppressed.

Attorney Wertz, for Taggart, was put on the stand. He denied the charge. One paper not before introduced in evidence was brought to light. It contained a copy of a letter from General H. C. Corbin in which he said that the Secretary of War concurred in the report of General Miner. This was concerning Taggart's alleged assault on his wife.

By orders of the Secretary of War, said General Corbin, General Miner was required to make monthly reports as to Taggart's sobriety.

The row between the attorneys grew until attorney Smyser charged Wertz with stealing a book from a freight office.

"You are a liar," said Wertz, and he started around the table toward Smyser. Judge Mason threatened to fine both attorneys for contempt, and quiet was restored.

Just about 11 o'clock Mrs. Taggart, cool and collected, took the stand. "I am 32 years old and was born and raised in Chicago," she said, in answer to the first question. Resuming she said: "I received a musical education. I attended church and Sunday school every week. My father, Mr. Culver, was a total abstainer and I was brought up that way." Mrs. Taggart then told of her first meeting with Capt. Taggart and her marriage to him.

### Steward and Valuables Missing.

Providence, R. I., Aug. 28.—J. F. Sheehan, steward of the steamer Dorchester, of the Merchants and Miners' Line, and $800 worth of cash and jewelry belonging to the company and to the passengers who arrived here Saturday from Baltimore, Newport News, and Norfolk are missing. The police of this city, New York, and other eastern cities have been notified and are on the lookout for him. The valuables were delivered to the steward for safe keeping in whose custody was the steamer's safe. Soon after the Dorchester arrived in Providence, the steward was missing, and investigation showed that the safe was open and its contents gone.

### Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people who seek to profit through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. BUCKLEN & CO., Chicago. Ill., and Windso., Canada, Sold by E. S. Leadbeater and Sons

### They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by Gibson Timberman and W. F Creighton & Co.

### Outcome of Political Disturbance.

Boston, Aug. 28.—The death of Sadie Cushman, now Mrs. William C. Albers, a well known Boston woman and former actress, or her confinement in prison, is the outcome of the political disturbances of Nicaragua, where she went after her marriage a year ago with her husband, who is president of the Limon Mining Company, and his brother. They also have disappeared. Senator Henry Cabot Lodge and other prominent New England statesmen are to be asked to use all their influence to set the machinery of the State Department in motion to ascertain their fate, and if they are alive, to secure their release from prison at once. The last direct communication received from Mrs. Albers was mailed at Jalapa, on the northern frontiers of Nicaragua, July 6, and was received by Mrs. Clayton, Mrs. Albers' mother August 16. In this nothing was said of any trouble with the authorities, but a few day later newspaper dispatches said that William Albers and his brother had been arrested. Inquiry at the State Department confirmed the report, but no further information was obtainable.

### Adjourned Examination.

New York, Aug. 28.—Counsel for Morris Haas, who was arrested on Friday last on a warrant issued by United States Commissioner Hitchcock charging him with conspiracy to defraud the government through the cotton leak scandal, will make a stubborn fight for their client, and at the same time a similar contest will be made in the interests of Frederick A. Peckham, who, it is alleged, was associated with Haas in procuring the information from the Agricultural Department at Washington. When Haas was surrendered on Friday, to United States Marshal Henkel and arraigned before Commissioner Hitchcock, his counsel, Mark Alter, refused to enter any plea. Today, when Commissioner Hitchcock resumed the hearing, he adjourned the examination until September 8, 1905, continuing the bail bond of $10,000. The removal of Haas and Peckham to Washington, where the indictment was found, will probably be delayed until the questions raised by counsel, for the defense, have been passed upon by a judge of the United States Circuit Court in this district.

### Yellow Fever.

New Orleans, Aug. 28.—While the number of new cases of yellow fever reported yesterday (thirty-one) was small, even for a Sunday, the number of deaths was the largest yet recorded. The drop in the temperature is accredited with the increased mortality

Mississippi is considerebly excited over the appearance of six cases of fever at Natchez.

The total number of cases to date has been 1,743, but only 199 of these remain untreated. The total number of deaths has only been 255.

### Wreck of Excursion Train.

Logansport, Ind., Aug. 28.—One person is known to have been killed and many injured in the wreck this morning of a Pennsylvania excursion train returning to this city, from Cincinnati. The train was ditched three miles southeast of this city, and several of the cars toppled over an embankment. Relief trains, loaded with physicians, have been dispatched to the scene. Several hundred people were on the train and it is believed the list of casualties may be large.

### Death of a Minister.

Asbury Park, N. J., Augs 28.—Rev. Geo. W. Treat, former councilman in Asbury Park, and who, with Bishop Shellmyer, purchased the first lots from founder James A. Bradley, died at Belmar, last night, aged 74. He was a direct descendant of Colonel Robert Treat, colonial governor of Connecticut.

### Suicide.

Paris, Aug. 28.—M. Cronier, manager of the Say refinery, one of the largest enterprises of the kind in France, killed himself yesterday, but the body was not found until today. Cronier's business affairs were badly involved and he leaves many large debts. His financial embarrassment was the outcome of the recent crash in the sugar market and the failure of M. Jalucot, who was caught in the slump. The news of Cronier's suicide has caused a complete suspension of sugar operations. On the commercial exchanges Say stocks dropped 370 francs today. The stocks an Egyptian refinery, which Cronier managed, as well as the Say refinery, fell forty-seven francs.

### New York Stock Market.

New York, Aug. 28.—The feature of the first hour was Reading, which, after an early fractional advance, easily dropped from 12½ to 118¾. The heaviest selling on this drop was by Harry Content, but the sales even by this broker were not large, and efforts to cause a further depression were fruitless, as inside buying orders appeared in sufficient volume to take all the offerings which at the low level came chiefly from room traders. A number of the stocks were sold by outside nervous holders in small lots, but the absence of demand made prices easily depressed. London was a moderate seller. The decline in Reading was apparently based on the announcement that John Mitchell would demand an eight-hour day for the anthracite miners. Amalgamated Copper fell 3, but recovered. In the general list the business seemed to be wholly confined to the room, with traders buying in the first few minutes and hurriedly selling after the break in Reading.

### The Market.

Georgetown, Aug. 28.—Wheat 60@80.

For the first time since he began his tour of the anthracite region, President Mitchell yesterday at Tamaqua, Pa., made an open and unequivocal declaration as to the stand he and his organization would take when the present wage agreement with the anthracite operators expires upon April 1, 1906. Before 8,000 people, at Manila Park, Mitchell declared that the union would absolutely insist on the adoption of an eight-hour day and recognition of the union, and elucidated at length the ground upon which these demands would be made.

The Sultan of Morocco has refused the demand of France and repudiated the latter's claim to jurisdiction over French-Algerian citizens in Morocco.

### Launch of Ferry Steamer.

The new double screw ferryboat, built for the Norfolk and Washington Steamboat Company for service on the ferry line between this city and Washington was launched at the yard of Harlan & Hollingsworth, at Wilmington, Delaware, today. A party of thirty persons, including the officers of the N. and W. line, representatives of the District of Columbia government, Mayor Paff of this city, the Presidents of the Board of Aldermen and Common Council and several ladies left early this morning over the Pennsylvania Railroad for Wilmington in a special car attached to an express train. They were the guests of the steamboat company on the trip. The launching took place at high water on the Delaware river, about 10:40 a. m. Little Miss Mary Sinon Callahan, daughter of Mr. David Callahan, assistant general manager of the Norfolk and Washington line, christened the steamer "Woodbury." A breakfast which followed the launching was served at the shipyard.

The new steamer will be a model of her kind and will have the following dimensions: Length over all, 190 feet; length between rudder posts, 175 feet 10 inches; beam on guards, 57 feet; beam modeled at deck, 39 feet; depth, top of keel to top of main deck, 16 feet 6 inches; depth, top of keel to top of pilot house, 51 feet; bottom of keel to top of stack, 69 feet.

The hull is entirely of steel, and is divided by four transverse watertight bulkheads and two longitudinal watertight wing bulkheads continuous between the peaks, with partial stiffening bulkheads between the former and the shell.

The main deck beams are in one length from guard rim to guard rim and are supported outside of the hull proper by iron braces.

The centre house or casing around boiler and engine opening, and the inner bulkhead of side houses on main deck, are all built of steel plates and well stiffened. These steel houses form the sides of the team gangway or horseway, and the deck and the carlins overhead are covered with sheet iron on the underside, thus forming practically a fireproof compartment for wagons, automobiles or whatever may be carried in these gangways. This is a very important feature, as the steamer has a longer trip to make than is usual for boats of this type.

The space below the main deck is occupied by propelling machinery, boilers, steering engines, sleeping accommodations for the crew, and it is contemplated fitting a refreshment counter or bar, which will be a very desirable innovation on this class of vessel. This space below decks is lighted by twenty-six side ports or lights, and by a large skylight over the engine room. Entrance to and escape from the engine room is effected by means of a ladderway which leads right up to the hurricane deck, having landings and doorways on the main deck and also at the saloon deck level, where a stateroom is fitted up for the captain and engineer.

On the side house above the main deck on the port side is a ladies' cabin, while on the starboard side is the men's cabin or smoking room.

These cabins are entered by large double swing doors at either end, and have a double stairway leading to the saloon above. These cabins will be finished in light colors. The stairway is of oak, and all the seats are of hard wood. Above the back of seats and wainscot the walls are paneled with canvas in suitable sized frames and mouldings, and tinted to harmonize with the general color scheme. The cabins are well lighted and ventilated. All windows, which are arranged in pairs, are made to slide, and due consideration has been given to the electric fixtures. The floor will be covered with a solid dark linoleum, which will form a pleasing contrast to the lighter walls and ceiling over head. One feature of these cabins is that under the stairways, which lead to the upper saloon, four rooms are fitted up with the latest type of water closet.

The upper cabin on the saloon deck forms one large room which has rounded ends and lighted by large windows, all of which are made to raise and lower. This saloon is fitted with hardwood seats and finished generally same as the lower cabins with canvas panels tinted in light shades.

The stairway landings in the upper saloon are enclosed and fitted with double swing doors entering to the saloon, and sliding doors leading out to the promenade on the saloon deck. These enclosures prevent draughts and smoke from rising from the men's smoking room.

There is ample promenade space outside of the saloon deck house, and sparred seats are fitted all around the rail, the whole being shaded by the overhang of the hurricane deck.

At either end of hurricane deck a pilot house is located, each pilot house containing the necessary navigating outfit such as compass, steering wheels, speaking tubes and bell pulls to engine room; these latter are led down through steel trunk ways, which also form supports for the heavy pilot houses.

On top of each pilot house a powerful search light is placed and is operated from within. This is also a feature very seldom seen on ferryboats but will be particularly useful on the run on which this boat will be employed.

The "Woodbury" is steered by a combined hand and steam steering gear, either of which can be used at will. She will be heated throughout by steam from the lower cabins to pilot houses, and is fitted with electric lights. The running and range lights are also electric.

The life saving and fire fighting equipment will be very complete, and installed to meet the latest requirements of the Board of Supervising Inspectors for the U. S. Government. She has two 20-foot steel lifeboats hung on davits and hundreds of life preservers made from solid cork, stowed so they can be readily got at. She will have hydrants and hose all attached and ready for immediate use, together with numerous fire buckets and chemical fire extinguishers.

The propelling machinery consists of a four cylinder triple expansion engine, which drives through a continuous line of shafting a propeller at either end of the vessel, steam being supplied by two Scotch marine boilers at 175 pounds pressure. The horse power will be about 1,200, and it is expected will drive the vessel at about fifteen and a half miles per hour.

The general appearance of the "Woodbury" will be attractive, with her overhanging bows to protect the rudders at each end; her double decks and houses with large windows, and the long, elliptical stack.

### Serious Cutting Affray.

A fight occurred late Saturday night in a house conducted by Eva Baker, on north Lee street, during which William Mankin, a well-known young man of this city, was beaten and cut in a manner which, it is feared, may result in his death. The injuries are said to have been inflicted by Houston Burke and Lewis Sykes, soldiers from Fort Hunt. Mankin is in the Alexandria Hospital and the soldiers are in custody. Mankin is not in a condition to make a statement and the soldiers refuse to give any version of the affair.

Policemen Ferguson and Bettis repaired to the scene when police whistles were sounded and arrested the two soldiers, both of whom were coatless, hatless, and bespattered with blood. Mankin was too weak to be removed from the house. Dr. Gorman, who was summoned, finally succeeded in restoring him sufficiently to be removed to the hospital where it was seen that Mankin had received five serious cuts in the scalp, one a circular cut of nearly six inches; two serious knife wounds in the back, and other wounds apparently inflicted with a blackjack.

It is said that during an altercation Burke attacked Mankin, and soon several men became participants. Dr. Gorman said yesterday morning that Mankin was in a serious condition, and he could not foretell the result of his injuries.

After being placed under arrest by Policeman Bettis, Burke succeeded in breaking from his captor after delivering two blows to him, neither of which, however, did any damage. Policemen Arrington, Knight, Bettis and Ferguson about 1 o'clock recaptured Burke on an electric train that was just leaving the city.

Burke and Sykes were arraigned in the Police Court this morning, but the examination of the case was postponed, Mankin being unable to be present.

The trouble between Mankin and Burke and Sykes is said to have originated from the conduct of one of the soldiers toward a woman of the house, the latter having had an ugly epithet applied to her. Mankin, it is alleged, resented this and called one of the soldiers a vile name. The proprietress of the house endeavored to stop the fight which followed, but was unable to do so, and finally blew a police whistle.

The condition of young Mankin was thought to be more favorable today.

### Funerals.

The funeral of Justice Joseph S. Beach took place yesterday afternoon, and was attended by a large number of relatives and friends of the deceased. Rev. J. A. Jeffers, of Trinity Church, conducted the services, and Messrs. A. H. Thomson, George Uhler, James Graham, J. G. Cockey, Charles Haines and F. W. Brawner acted as pallbearers. The interment was in Bethel cemetery.

The funeral of James Miffleton took place at 4 o'clock yesterday afternoon from his late residence on Commerce street. Rev. Dr. Fisher, of the Baptist Church, and Rev. Edgar Carpenter, of Grace Church, conducted the services, and the pallbearers were Messrs. John Harrison, James Javins and P. F. Gorman, representing the Friendship Veteran Fire Association, and Frank Martin and Charles Steele. The interment was in the Methodist Protestant Cemetery.

### Police Court.

[Justice Julius Pelton presiding.]

The following cases were disposed of this morning:

William and Ida Hunter, colored, arrested by Officers Young and Roberts charged with disorderly conduct and fighting on electric cars, were fined $5 each.

Houston Burke and Lewis Sykes, charged with assaulting and cutting William Mankin, had their cases continued.

John Green, colored, arrested by Officer Nicholson charged with assaulting and beating Walter Dudley, was fined $2.50. Dudley was also fined $2.50 for disorderly conduct.

### Charter.

Promoters of a colonization scheme to assist immigrants to establish themselves in Cuba obstined a charter from the State Corporation Commission Saturday. The charter was issued as follows:

Cuba-Finland Colonization Company (incorporated), Alexandria, Va. Incorporators: J. F. Dowling, president; Thomas D. Sariol, vice president; W. S. Odell, secretary; N. Bickford, treasurer, all of Washington, D. C. Capital stock: Maximum, $30,000; minimum, $10,000. Object and purpose: To assist immigrants to establish themselves in Cuba.

### Special Session.

Judge C. E. Nicol, of the Circuit Court of Alexandria county, will hold a special session of court the first week in September, when the damage cases against the Washington, Alexandria and Mount Vernon Railway Company, resulting from a collision which occurred at Spring Park on March 1 last, in which a number of persons were more or less injured, will be called for trial.

### Pleasant Sunday.

Yesterday was the first pleasant Sunday hereabouts for over two months. A stiff breeze from the northeast kept the temperature down in the 60s a greater part of the day. Big silver clouds chased one another across the sky, and all the while the sun shone cheerfully. Many people were on the streets and there was an increased attendance at the churches.

### Death of Mr. Brawner.

Charles P. Brawner, aged twenty years, a son of Mr. Eugene H. Brawner, died yesterday morning at his home on Cameron street, between Fairfax and Lee, after a brief illness. He was a native of Charles county, Md., and had resided in this city about two years. His remains will be taken to Charles county, on Tuesday, for burial.

Mrs. M. H. Nash is quite sick at her home, 109 north Patrick street.

### The Collier Marcellus.

The United States naval collier Marcellus came up the river Saturday afternoon and anchored off this city. The steamship has aboard, it is stated, a quantity of old gun mounts which have been removed from the naval ships at the Brooklyn navy yard, and which are sent to the Washington navy yard to be modernized. The Marcellus is one of the largest vessels that has come up the Potomac in several years. She was built in England in 1879 and was the German steamship Titania when purchased by the naval authorities for a coal ship at the outbreak of the war with Spain.

### Sudden Death.

Mr. Henry Jett, employed in the freight department of the Washington and Ohio branch of the Southern Railway, died suddenly at the depot this afternoon. He apparently swooned and Drs. O'Brien and Gorman, who had been summoned, repaired to the depot, but life was extinct before their arrival. Mr. Jett was about 65 years old. He leaves a widow and two children.

### Indian Fortune-Teller.

A young Indian squaw, in all the primitive adornments of a daughter of the forest, was in the city today offering her services as a fortune-teller. She did not have many customers, but few manifesting curiosity concerning things to come. The present revenue laws of the city levy a license tax of $100 upon persons who pretend to raise the veil on futurity.

### Large Peach.

Mr. Frank Evans sent to this office today a peach which weighed nine ounces. It was grown by his father, Mr. Paul R. Evans, on his premises, on south Henry street. The peaches from the tree are of the finest variety and luscious in taste.

### Death of Ludwell Lee.

Mr. Ludwell Lee, a well-known resident of the Woodlawn neighborhood in Fairfax county, died yesterday. The deceased was 63 years old. His remains will be forwarded tomorrow morning to Upperville, for interment, by Demaine & Son.

### Atlanta's Mayor Defiant.

The Common Council of Atlanta is preparing a warm reception for Mayor Woodward, who made a scene at the municipality convention in Toledo. On Saturday afternoon it was decided to hold a special meeting of the Council today, when Mayor Woodward is expected to reach home, to consider the conduct of the Mayor. It is said that a majority of the Council is pledged to work for the impeachment of Woodward. The Mayor was still in Toledo Saturday and wired a message of defiance which has increased the indignation. Evidence is being procured from officers of the Municipal League who witnessed the outbreak of the Mayor to support an impeachment charge. Sentiment in favor of ousting the Mayor is general.

There is a great increase in the agrarian agitation in various parts of Russia, notably in the Caucasus, where there have been serious disturbances. The refusal of the peasants in the village of Inchadedshan to pay Prince Inukhransky the proportion of the crop to which he was entitled led to a serious conflict between the peasants and Cossacks. The Cossacks fired on the peasants, killing and wounding nineteen, according to an official count, and, according to an unofficial account, seventy.

### Peace Prospects.

At the request of the Japanese envoys who expect advices from Tokio, the meeting which was to have taken place today has been postponed until tomorrow.

Should the expected dispatch arrive in time, however, M. Witte says the meeting will take place as originally fixed.

Minister Takahira, in answer to questions, stated that he had asked for a postponement because of a desire to be careful about ending the conference, out of regard for President Roosevelt's efforts and because of the momentous consequences involved.

The respective suites of the envoys are blue over the outlook. They have all the trunks packed and accounts adjusted and are ready to depart at a moment's notice.

President Roosevelt's perseverance in his efforts to bring the two sides together is said to be irritating the Russians.

The Czar's reply to the latest appeal is that Russia will agree to the division of the Island of Saghalin, that liberal payment shall be made to Japan for the care of Russian prisoners, but that no indemnity shall be paid.

Russia will agree to a division of Sakhalin, Japan retaining that portion previously belonging to her and Russia taking the northern portion.

There are indications that Japan may withdraw the demand for indemnity and be content to have her war bill paid by Russia in a form that will not offend dignity.

Chancellor von Buelow declares the Emperor and German government are firm for peace and cordially indorse President Roosevelt's efforts.

### Japanese Painting.

The Japanese, with their natural, unsophisticated view of life, have ever sought in their art to mirror what a great painter and critic has termed "men's primordial predilections." Art, however, that seeks to embody pleasures founded on the unchanging properties of human nature must have a past as well as a future, must be able to look backward as well as forward. Not one's life labor, but that of many generations, is required. No people have better understood this than the Japanese. They have also clearly perceived that no art that is not true to the changeless element in man can endure, while, on the other hand, any subject, however trivial, can be made eternally attractive if only treated in accordance with aesthetic law.

Japanese painting delights us by its delicate fancy, its poetry, its freedom, its spirit, but what gives these qualities special and enduring charm, what makes the play of fancy never wearisome, the liberty never mere license, is that they find expression in and through a framework of design so finely conceived that in it we see reflected as in a mirror the fundamental principles which govern all true art.—W. M. Cabot in Atlantic.

### Power of Fashion.

Though we can neither tell whence fashion comes, nor how, nor what it will do next, nor why it was yesterday one thing, today is something else and tomorrow will be different, nor why it always has been, is now and probably always will be obeyed, it moves steadily forward into that realm of common sense where beauty and utility blend in perfect harmony and ever keeps step with the progress of civilization and culture. No garment can please the man of refined and cultivated taste, however correct it may be in fit, however well it may be tailored or however excellent the materials may be of which it is made, unless it is fashionable, even though it violates no law of art and of itself is a thing of beauty, for without that indescribable something that only fashion can give it is like a flower without fragrance or a tune without music.—Sartorial Art Journal.

### Two Tales of Macready.

It is not always well to strut and fret one's little hour upon the stage too realistically. Macready, who threw himself into his acting heart and soul, used to tell funny stories about the effect of his easy, colloquial manner upon the players collected for his company in small provincial towns. Once in the play of "William Tell" he turned to one of these stupid rustics and put the question, "Do you shoot?" so naturally that the man was quite thrown off his guard, and, to his horror, replied, "A little, sir, but I've never had a go with one of them crossbows." Another time in "Virginius" he asked, "Do you wait for me to lead Virginia in, or will you do so?" only to be greeted unexpectedly by the actor who played Icilius with, "Why, really, sir, I don't care; just as you do it in London."

### Sennit.

In Polynesia and the Pacific islands generally the outer husk of the cocoa nut is braided into strands of uniform texture, known to the natives as sennit and used by them for a variety of purposes. The framework of their houses is held together by braided sennit, and the strakes of their boats are united by it. It is the staple from which string is made to bind the adze blade to its handle and to tie the different parts of their implements securely together. In short, whatever things are nailed or screwed or pegged or glued in other lands are tied together with sennit by the south sea islander.

### One Legged Dinner Party.

A certain gentleman, the possessor of a cork leg, living in one of the London suburbs annually gives a dinner to a dozen owners of a like substitute. In the center of the table are grouped four crutches, around which twine festoons of flowers; miniature legs in ivory compose the handles of the knives and forks, while the piece de resistance is invariably a magnificent turkey that has been deprived of a leg before being brought to table.

### English Fish Laws.

Fish, because of its tendency rapidly to decompose, holds a peculiar position among foods. In England it is the subject of a special act of parliament. So long ago as 1698 men knew the evil consequences resulting from eating mackerel of uncertain post mortem age, so they passed an act providing that except during the hours of divine service this fish could be sold on Sunday. That act has never been repealed.

### Making it Plain.

Sapleigh—Oh, I say, Miss Hammerton, why is it that you are always out when I call? Miss Hammerton—Because I'm foolish, I suppose. Sapleigh—I—er—beg pardon! Miss Hammerton—Well, you know the old saying, "A fool for luck."

### A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the oldfashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in in case of cholera infantum. For sale by Gibson & Timberman and W. F. Creighton & Co

### Pleasantly Effective.

Never in the way, no trouble to carry, easy to take pleasant and never failing in results are DeWitt's Little Early Risers. These famous little pills are a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tonic and strengthen the liver. Cure Jaundice. Sold by W. F. Creighton, & Co. 401 King street.

### "The Delight of Mankind."

Titus, the Roman emperor, was entitled "the delight of mankind." Titus' beneficence was unbounded, and it so happened that during his brief reign there was the most urgent need of its exercise. In the first year occurred the great eruption of Vesuvius, overwhelming Herculaneum and Pompeii and ruining numerous other towns and villages. The next year a fire broke out in Rome, which raged three days, causing great destruction, and in the tracks of these calamities followed a dreadful pestilence. Titus dealt out gifts with lavish hand to the houseless and ruined sufferers. He even despoiled the palaces of their valuable ornaments to obtain money for distribution and schemed and planned to furnish occupation for them. He was now the idol of his subjects, the "love and delight of the human race," but, unfortunately for that part of the human race over which he ruled, in the commencement of the third year of his reign he became suddenly ill and died at his patrimonial villa in the Sabine country.

### Noted Dead In Trinity Churchyard.

Alexander Hamilton is buried in Trinity churchyard, at the head of Wall street, New York, and the grave is marked by a conspicuous white marble monument near the Rector street station of the elevated road. His wife, who lived until 1854, fifty years after his death in the duel with Burr, is buried beside him. Albert Gallatin, who succeeded Hamilton as secretary of the treasury, lies only a few feet away, and near by is also the grave of Robert Fulton, inventor of the steamboat. Another famous occupant of Trinity churchyard, whose monument is near the Broadway gate, is Captain James Lawrence of the United States navy, commander of the frigate Chesapeake, who fell in battle with the British ship Shannon June 1, 1813, in the thirty-second year of his age. As he fell upon the deck he cried to his subordinates, "Don't give up the ship!"

### A Losing Dream.

"I made a nice idiot of myself the other morning," said the commuter, who is paying teller in a savings bank. "My wife was afraid I'd miss my train, and she got me by the shoulder and shook me, telling me that it was time to get up. I got about half awake, and, somehow, I thought I was at my window in the bank with a long line of women awaiting their turn. The one at the window was handing me a check, and, from force of habit, I said:

"'How much money do you want?'

"You know, most women who present checks want to draw some and deposit the rest. Well, what do you think the wife did? Quick as a flash came her answer to my 'dopy' question:

"'Five dollars will do.'

"She got it, but I hope I won't dream any more."—New York Post.

### An Eccentric Painter.

William Willard, well known as the painter of Massachusetts' governors, was very eccentric in his ways. His special aversion was the attempted purchase of his many old relics of furniture by people of wealth. A New York woman visiting in the vicinity of Sturbridge, hearing that the old artist possessed a beautiful colonial mirror and a rare clock, tried to buy them. Mr. Willard seemed to readily agree to the sale, but when asked when it would be convenient to have them packed replied, "Not until after the funeral." "Whose funeral?" asked the visitor. "Mine," replied Mr. Willard, with a chuckle.

### An Early Railroad.

An old inventory of the Mohawk and Hudson railroad, now a part of the New York Central and Hudson River railroad, dated Jan. 1, 1833, gives the following as the total rolling stock of the road at that time: Three locomotives (the John Bull, the De Witt Clinton and the Experiment), three carriages, accommodating twelve passengers each; nine, accommodating nine each; two, accommodating six each, and three, accommodating eighteen each, a total capacity of 183.—Four Track News.

### Grave Trouble Foreseen.

It needs but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by E. S. Leadbeater & Sons, druggists at 50c a bottle.

JEWELRY.

## Rings for Everybody.
No matter what sort of ring you prefer you can surely select one to please your taste from among the trayfulls of rings we have here. We have a fine selection of signet rings in the latest and most favored designs and a large variety of handsome singlestone rings at popular prices, as well as a rich showing of the more elaborate and more expensive ones. And, besides, we can show you the handsomest line of watch chains and fobs that have ever been seen here. They are the Simmons make, which, as about everyone knows, are the standard of chain and fob quality in this country.
